The Board of Directors of the Company is responsible for the preparation and presentation of this condensed interim financial information in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2016 condensed interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

13 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value hierarchy

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

Fair value hierarchy

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- *Level 1* quoted prices (unadjusted) in active markets for identical assets and liabilities.
- *Level 2* inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- *Level 3* inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

NOTES

to the 30 June 2016 condensed interim financial information

Bahraini dinars

13 FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

This hierarchy requires the use of observable market data when available. The Company considers relevant and observable market prices in its valuations where possible.

a) *Financial instruments measured at fair value:*

The table below analyses financial instruments, measured at fair value as at the end of the period, by level in the fair value hierarchy into which the fair value measurement is categorized:

2016

	Level 1	Level 2	Level 3	Total
Available-for-sale investments:				
Quoted equity securities	6,107,464	-	-	6,107,464
Managed funds	-	412,118	-	412,118
	6,107,464	412,118	-	6,519,582

2015

	Level 1	Level 2	Level 3	Total
Available-for-sale investments:				
Quoted equity securities	6,162,317	-	-	6,162,317
Managed funds	-	417,171	-	417,171
	6,162,317	417,171	-	6,579,488

No transfers out of, or into, the level 3 measurement classification occurred during the period ended 30 June 2016.

b) *Other financial assets and liabilities:*

Except for AFS investments with carrying value of BD 40,541 (2015: BD 75,000) which are carried at cost less impairment due to the absence of a reliable increase of fair value, the carrying amount of the Company's other financial assets and liabilities approximate their fair values due to their short term nature.

14 COMPARATIVES

The comparative figures have been regrouped, where necessary, in order to conform to the current period's presentation. Such regrouping did not affect the previously reported profit and comprehensive income for the period or total equity.
