Independent auditors' report on review of condensed interim financial information

To the Board of DirectorsBahrain Flour Mills Company B.S.C.
PO Box 26787
Kingdom of Bahrain

Introduction

We have reviewed the accompanying 30 June 2022 condensed interim financial information of Bahrain Flour Mills Company B.S.C. (the "Company"), which comprises:

- · the condensed interim statement of financial position as at 30 June 2022;
- the condensed interim statement of profit or loss and other comprehensive income for the three-month and sixmonth periods ended 30 June 2022;
- the condensed interim statement of changes in equity for the six-month period ended 30 June 2022;
- · the condensed interim statement of cash flows for the six-month period ended 30 June 2022; and
- · notes to the condensed interim financial information.

The Board of Directors of the Company is responsible for the preparation and presentation of this condensed interim financial information in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2022 condensed interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

1 REPORTING ENTITY

Bahrain Flour Mills Company B.S.C. (the "Company") is a Bahraini public shareholding company registered with the Ministry of Industry and Commerce in the Kingdom of Bahrain under commercial registration number 1170 obtained on 16 July 1970 and listed in Bahrain Bourse. The Company was incorporated by an Amiri Charter dated 9 May 1970 and commenced commercial operations on 1 May 1972.

The principal activities of the Company are the production of flour and related products which are sold in the local market.

The Company's majority shareholder is Bahrain Mumtalakat Holding Company B.S.C. (c) ("Mumtalakat" or "Ultimate Parent"), a company wholly owned by the Government of the Kingdom of Bahrain, which holds 65.73% of the Company's share capital. With effect from 15 December 2021 the majority shareholder holding 65.73% was transferred from Mumtalakat Holding Company B.S.C (c) to Bahrain Investment Holding Company – Istithmar B.S.C. Closed. The necessary intimation has been filed with regulators.

2 BASIS OF PREPARATION

a) Statement of compliance

- (i) The condensed interim financial information has been prepared in accordance with International Accounting Standard 34 (IAS), Interim Financial Reporting, which permits the condensed interim financial information to be in summarised form. The condensed interim financial information does not contain all of the information and disclosures required in the annual financial statements as at 31 December 2021 and should be read in conjunction with the audited financial statements of the Company for the year ended 31 December 2021. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last annual financial statements as at and for the year ended 31 December 2021. There are some amendments to existing standards and framework, which are effective from 1 January 2022, but these do not have a significant impact on the Company's condensed interim financial information. The Company did not early adopt any new standards during the period.
- (ii) The condensed interim financial information is reviewed, not audited. The corresponding figures for the condensed interim statement of financial position have been extracted from the Company's audited financial statements for the year ended 31 December 2021 and the corresponding figures for the condensed interim statements of comprehensive income, changes in equity and cash flows have been extracted from the Company's 30 June 2021 reviewed condensed interim financial information.

b) Use of judgements and estimates

Preparing the condensed interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

c) Financial risk management

The Company's financial objectives and policies are consistent with those disclosed in the financial statements for the year ended 31 December 2021.

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied in this condensed interim financial information are the same as those applied in the Company's audited financial statements as at and for the year ended 31 December 2021.

For the six months ended 30 June 2022

4 EARNINGS PER SHARE

13 SEGMENTAL INFORMATION

A segment is a distinguishable component of the Company that is engaged either in providing products or services (business segment) or in providing products or services within a particular environment (geographical segment), which is subject to risks and rewards that are different from those of other segment. The Company's current activities are primarily the production of flour and related products which are sold in the local market. The revenue, expenses and results are reviewed only at a Company level and therefore no separate operating segment results and other disclosures are provided in this condensed interim financial information.

14 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value hierarchy

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

NOTES TO THE CONDENSED INTERIM FINANCIAL INFORMATION For the six months ended 30 June 2022

Bahraini dinars

14 FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1 guoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2 inputs other than quoted prices included within Level 1 that are observable either directly
 (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using:
 quoted market prices in active markets for similar instruments; quoted prices for identical or similar
 instruments in markets that are considered less than active; or other valuation techniques in which all
 significant inputs are directly or indirectly observable from market data.
- Level 3 inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

This hierarchy requires the use of observable market data when available. The Company considers relevant and observable market prices in its valuations where possible.

17 SIGNIFICANT EVENTS

(i) COVID - 19

On 11 March 2020, the Coronavirus (COVID-19) outbreak was declared a pandemic by the World Health Organization (WHO) and has rapidly evolved globally, which continued in 2021 and 2022. This has resulted in a global economic slowdown with uncertainties in the economic environment. Global equity and commodity markets have also experienced great volatility in prices. Since the outbreak, the authorities have taken various measures to contain the spread including implementation of travel restrictions and quarantine measures.

(ii) Other significant matters

The current ongoing conflict between Russia-Ukraine triggered a global economic disruption and has, amongst other impacts, led to increased volatility in financial markets and commodity prices due to disruption of supply chain which may affect a broad range of entities across different jurisdictions and industries. The management has carried out an assessment and has concluded that it does not have any direct exposures to / from the impacted countries. However, potential for indirect exposures continue to exist. At this stage it is difficult to quantify the full impact of this conflict since it depends largely on the nature and duration of uncertain and unpredictable events, such as further military action, additional sanctions, and reactions to ongoing developments by global financial markets. To minimize the indirect impact the management has taken number of actions to secure known grain type and quality from known origin at time aligned with anticipated requirements, to maintain uninterrupted supply within the available capacity of the Company's infrastructure, forward cover is sought to mitigate any lack of capacity from origin. The impact of the changes and volatility in prices will be subsidized by the Government of Kingdom of Bahrain as per current subsidy arrangement structure. The management will continue to closely monitor impact of this evolving situation on its operation to assess indirect impact, if any.

In preparing the condensed interim financial information, judgements made by management in applying the Company's accounting policies and sources of estimation are subject to uncertainty regarding the potential impacts of the current economic volatility and these are considered to represent management's best assessment based on available or observable information.
